Website: <http://www.garnetindia.com>

We would like to introduce ourselves as an **ISO 9001:2000 certified manufacturer** of **Bamboo Processing machines, Wood working machines and cutting tools** for the **last 30 years**.

Our Salient and distinctive features are enlisted below:

- Approved from **National Mission on Bamboo Application (N.M.B.A.)**
- Have **customers all over INDIA and abroad**.
- Repeated export orders showing our edge in quality and customer satisfaction.
- **Conduct training programs** for the artisans and **executive level information seminars as well as workshops** providing complete know-how and details in the **project making and implementation** at various levels of its progress.
- We provide **turn key solutions** for the bamboo, wood and other special purpose non-ferrous and ferrous processing industries.
- We have **standardized parts and accessories** for better service and working of machines.
- We provide **standard manuals, tool kits, cutting tools and accessories** with machines.

Presently, there are many products in the market using the bamboo as raw material, some of them are:-

- 1. Square sticks i.e. incense or agarbatti sticks**
- 2. Mats**
- 3. Toothpicks**
- 4. Bamboo Flooring tiles, boards, etc.**
- 5. Furniture**
- 6. Round Sticks for blinds**
- 7. Handicraft**
- 8. Match sticks**
- 9. Charcoal and some more under development**

These products can be manufactured using various processing machines manufactured by us. We have complete range of machines to cater your needs of varied bamboo species and production capacities. We strive to provide customer satisfaction using reliable machines customised machines and tools. We have specialized in developing machines and tools specifically for your needs and product requirements. We look forward for your support in developing this sector further.
